Pupil Premium Statement 2020-2021

The pupil premium is allocated to schools for;

- Children of statutory school age from low income families who are known to be eligible for free school meals (FSM)
- Children who have been looked after continuously for more than six months
- Children whose parents are currently working in the armed forces

The level of pupil premium is £1300 per pupil.

The DFE offer the following guidance;

In most cases the Pupil Premium is allocated to schools and is clearly identifiable. It is for schools to decide how the Pupil Premium , allocated to schools per FSM pupil, is spent, since they are best placed to assess what additional provision should be made for the individual pupils within their responsibility.

However they also state that;

Schools are free to spend Pupil Premium as they see fit. However they will be held accountable for how they have used additional funding to support pupils from low income families.

The purpose of this statement is to effectively plan the way the pupil premium money will be spent over the year and enable us to inform parents, carers and governors of the impact it has on outcomes for pupils.

EEF Impact of School Closures 2020 - *Sustained support will be required to help disadvantaged pupils catch-up after they return to school. ...while efforts to support remote learning are likely to have been of considerable benefit to many children, and are likely to have reduced the overall amount of learning loss due to closures, there are indications that, overall, the remote learning that has taken place during school closures is likely to have further widened rather than narrowed the gap.*

2018-19 Outcomes attainment (last complete academic year)			2019/20 Outcomes Due to the COVID-19 pandemic, statutory assessments did not take place. Internal monitoring at the end of 2019/20, following pupils' return to school after lockdown, indicated that basic acquisition of English was lower than expected in EYFS and that standards in reading fluency at KS1 and reading inference through KS2 was most significantly adversely affected.

Barriers to future attainment (for pupils eligible for PP)

In-school barriers

A - Children in receipt of pp historically make less progress in reading through KS2 and attain lower standards than their peers.

B - A significant number of pupils in receipt of PP have poor oral language skills and vocabulary development. Additionally, 40% do not speak English at home.

External barriers (issues which also require action outside school)

C - A significant number of pupils in receipt of PP have identified issues with attendance and punctuality.

D - Pupils who are eligible for PP are also members of other vulnerable groups, increasing the risk of social, emotional and behavioural difficulties, thus increasing their vulnerability to underachievement.

1. Desired outcomes

	<i>Desired outcomes and how they will be measured</i>	<i>Success criteria</i>
A.	Pupils in receipt of PP attain standards in line with national non-PP in reading	Increased rates of progress through KS2 and attainment in line with national non-PP in reading
B.	Pupils in receipt of PP achieve the same level of vocabulary development as their non-PP peers	PP pupils use and apply a broad range of vocabulary and achievement in writing increases
C.	Pupils in receipt of PP attend in line with all pupils nationally and are punctual for school. They attain outcomes that are similar to their peers.	Attendance % matches or exceeds national Internal records indicate that punctuality is improving
D.	LKS2 pupils (identified as a high number of vulnerable pupils) respond positively and are well integrated to school life	% of LKS2 pupils requiring additional support reduces over the year as their resilience increases

Planned expenditure

Academic year 2020 - 2021

The three heading below enable schools to demonstrate how they are using the pupil premium to improve classroom pedagogy, provide targeted support and support whole school strategies.

1. Quality of teaching for all (Quality First Teaching)

Desired outcome	Chosen action / approach	EEF Research link	What is the evidence and rationale for this choice?	How will you ensure it is implemented well?	Staff lead	When will you review implementation?
<p>A - Pupils in receipt of PP attain standards in line with national non-PP in reading</p>	<p>Additional teachers for WAVE 1 reading and phonics teaching in KS1</p> <p>ASAs deployed to pre-read texts to support access to quality first teaching in years 2 and 3.</p>	<p>Making best use of teaching assistants</p>	<p>Because of local lock down, a significant number of pupils are vulnerable to having gaps in reading and phonic knowledge at a critical point in their early reading development.</p> <p>Increasing pupil's access to first quality teaching is a priority.</p> <p><i>Findings from...studies suggest that children from the most disadvantaged families are spending less time on learning activities, are submitting less work and typically have access to fewer resources at home.
